

# Mexico WindPower

CONGRESS

## THE MOST IMPORTANT GATHERING IN THE WIND ENERGY SECTOR

Clean and renewable energies like wind power are essential in addressing climate change challenges.

In its twelfth edition, **Mexico WindPower®** solidifies its position as the leading congress in the country's wind energy sector.

This forum brings together professionals during the International **Congress on August 27th and 28th**, addressing topics of significant value for both the public and private sectors.

This high-level congress focuses on strategies that enable Mexico's sustainable growth through concrete actions across the entire production chain.

The congress will bring together **CEOs, department heads, managers, strategy and regulation leaders, procurement professionals, project managers, research and development personnel**, among many others.

### POSITION YOUR BRAND AT THE ONLY SPECIALIZED CONGRESS FOR THE WIND ENERGY SECTOR!

- Brand presence before a relevant target audience. Gain visibility among industry professionals and enhance recognition.
- Network with sector leaders, fostering valuable connections, strategic collaborations, and business opportunities.
- Become the sector's leading brand and make an impact in this collaborative journey.
